Implementing Sustainable Solutions

HIRGAL PLATFORM

Company Profile

1. Our Background

Hirgal Platform is a specialized technology solution worker and ICT teaching center based on horn of Africa set up in 2022. Hirgal Platform was established to fill the hole of the horn of Africa nation's ICT arrangements and past by changing organizations, working frameworks, and advanced innovations, with hands-on specialized preparing. Engages people, and associations to tackle and produce new musings. We consider it to be our obligation to cause individuals to feel at home later on, regardless of how incredible the innovation is. We have centers across the horn of Africa, especially in Somalia, Djibouti, Kenya and Ethiopia.

Thusly, we are focused on illuminating the most troublesome business challenges in a valuable and fulfilling path through the work we do, and putting resources into instructing individuals on the advanced aptitudes that will be expected to accomplish that work. Truly, we assist customers with unraveling their advanced difficulties with the scale expected to redesign their unpredictable associations to make the most of the incredible open doors that the most recent innovations empower, and the speed they expect of their clients, accomplices, and proprietors. We accept that the possibilities offered by the innovation are rarely far away, and at that chance, Hirgal Platform will proceed onward to one of the ICT focuses in the horn of Africa.

2. Our Vision

We are fully committed in becoming the contractor of choice, pursuing excellence through dedication, experience and disciplined employees with an ongoing passion to deliver quality, timely and profitable projects.
